ASSESSMENT OF STUDENT LEARNING

Reading Assignments: Complete assigned readings *before* class. Come prepared to discuss them and share examples.

Weekly Participation: You are expected to thoughtfully contribute to lectures, discussions and activities at least once (preferably more) in every class session to earn full participation credit.

In-Class Projects/Activities: We will complete numerous activities in class, which cannot be made up if you are absent. Requirements and grading criteria will vary and be included with each assignment.

Matchbook Takeaways: At the start of the semester, we will create your matchbook takeaway folder. You are expected to write at least one takeaway per chapter in each matchbook. Matchbook folders will be reviewed and graded at the end of each of the four course units. This is your class souvenir to keep!

Unit Exams: Exams based on the material and discussions we cover each unit will be due at the end of every unit. They are completed online as homework, and you can use your books, notes or study groups.

Unit Projects: We will complete various larger summary projects at the end of each unit. Details for each will be shared in class.

Business Plan Peer Group Project: You will be required to create a Business Plan for a business idea or product you would like to pursue. The project is comprised of four subject-specific milestones and concludes with a trade show-style presentation.

Final Exam: You will complete a comprehensive review of all material covered throughout the semester.

STUDENT LEARNING OUTCOMES

1. Students will demonstrate knowledge of business ownership, organization and functions, and the systems, technology, and controls through which business organizations operate.
2. Students will demonstrate knowledge of the elements and considerations required to start a new business.
3. Students will demonstrate knowledge of ways that governmental/political, social, economic, technological, and global characteristics affect business.
4. Students will demonstrate knowledge of the various management structures and levels; the knowledge and skills required to perform management functions at various levels of management; how to evaluate candidates for different levels and types of management positions.

IMPORTANT POLICIES

Plagiarism Policy

Academic integrity is taken very seriously in this course. Plagiarism is any conduct in academic work or programs involving misrepresentation of someone else's words, ideas or data as one's original work. Cheating is the use of any unauthorized materials, or information in academic work, records or programs, the intentional failure to follow express directives in academic work, records or programs, and/or assisting others to do the same. You are responsible for authenticating any assignment submitted to an instructor. If asked, you must be able to produce proof that the assignment you submit is actually your own work. Therefore, I recommend that you engage in a verifiable working process: Keep copies of all drafts of your work, make photocopies of your research materials, write summaries of research materials, save writing center receipts, keep logs or journals of your work, save drafts/revisions of assignments under different file names, etc. The inability to authenticate your work, should I request it, is sufficient grounds for failing the assignment. Academic dishonesty, including, but not limited to falsification, plagiarism, cheating or fabrication, which compromises the integrity of an assignment, a college record or a program is in violation of Saddleback College's Student Code of Conduct. Please review your Student Handbook to fully understand your responsibilities within this important college policy.

Americans with Disabilities Act

Students with disabilities who need accommodations to achieve course objectives should file an accommodation application with Special Services and provide a written plan of accommodation to instructors prior to any accommodations being provided. Contact a Counselor/Specialist or the Director of Special Services at SSC 113 or (949) 582-4885 for assistance with this process.

HOW TO EMAIL YOUR PROFESSOR

The screenshot shows an email composition window. The 'To' field contains 'rknapp@saddleback.edu'. The 'Subject' field contains 'Detailed Subject Line'. The email body text is as follows:

Dear Professor Knapp,

I'm in your **Class Name**, **Section Number** that meets on **This Day/Time**.

This is the question I have or the help I need. I've looked in the syllabus and at my notes from class and online, and I asked someone else from the class. I think **This Is The Answer**, but I'm still not sure. **This is the action I would like you to take.**

Signing off with a Thank You is always a good idea,
